Paving the Way
to a **Brighter**
Future...

Leadership Historic Triangle
Class of 2009

a Place to be me

MAKE MY PLACE, YOUR PLACE

You are holding a brighter future in your hands for children who call the Historic Triangle home. Join with Leadership Historic Triangle's class of 2009 and help your community maintain My Place, a playground of opportunity for all children regardless of physical or mental ability. Your donation will assist in the maintenance of this unique playground at the James City County Recreation Center. My Place follows universal design concepts to ensure all children can play in an inclusive environment. For your \$50 donation, you'll receive a commemorative brick paving stone, which can be laser etched with your personal message. This paving stone will become part of the foundation of this special project, and will ensure future generations know that My Place is your place.

PERSONALIZING A BRICK

- Each brick may have up to three (3) lines with 20 character spaces per line.
- Spaces, commas, dashes, periods, quotation marks and semicolons all count as one character.
- The text may be in all upper case or upper and lower case. Please specify your preference on the attached form.
- The paver engraver will automatically center your message.

James City County reserves the right to make any and all decisions regarding use and maintenance of the playground.

WHAT IS UNIVERSAL DESIGN

The design of products and environments to be usable by all people, to the greatest extent possible, without the need for adaptation or specialized design.

UNIVERSAL DESIGN PRINCIPLES

- Equitable Use:** The design is useful and marketable to people with diverse abilities.
- Flexibility in Use:** The design accommodates a wide range of individual preferences and abilities.
- Simple and Intuitive Use:** Use of the design is easy to understand, regardless of the user's experience, knowledge, language skills or current concentration level.
- Perceptible Information:** The design communicates necessary information effectively to the user, regardless of ambient conditions or the user's sensory abilities.
- Tolerance for Error:** The design minimizes hazards and the adverse consequences of accidental or unintended actions.
- Low Physical Effort:** The design can be used efficiently and comfortably and with minimum fatigue.
- Size and Space for Approach and Use:** Appropriate size and space is provided for approach, reach, manipulation and use regardless of user's body size, posture or mobility.
